#### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Martin Fleit on November 18, 2004.

Accordingly, claims 31-39 and 71-80, representing non-elected species, are canceled.

#### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

Claims 1-12 and 41-70 are allowed, as the prior art of record does not teach or suggest an apparatus and method for treating a sample to acquire multidimensional spectra within a single scan, including means whereby various subassemblies are selectively manipulated by a time-increment series of excitation sequences, in combination with the remaining limitations of the claims.

Claims 13-30 are allowed, as the prior art of record does not teach or suggest a method for treating a sample to acquire multidimensional magnetic resonance spectra, within a single scan, including steps of applying a train of frequency selective radio frequency pulses in unison with the gradient so as to endow spins at different positions

within the sample with incremented values of their evolution times, in combination with the remaining limitations of the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
